LUMA

NESCO
LIFESTYLE

About us:

NESCO Lifestyle brings four decades of steel craftsmanship into the realm of outdoor living. We create lighting and furniture that are built to last, shaped with care, and designed to belong in thoughtful landscapes. Each piece reflects our heritage in engineering, fabrication, and architectural lighting.

LUMA
TREE SUPPORT

Description:

LUMA is a refined tree support system that unites structure, seating, and lighting in a single, considered form. Developed with landscape designers, it protects the tree's root zone while enhancing the surrounding space. Built with durable steel and optional integrated lighting, LUMA is crafted to stay, serve, and harmonize with nature.

Product Highlights:

Three Functions in One
Tree support, lighting, and seating - seamlessly integrated into one design.

Engineering Strength
Anchored with screw pile foundations for long-lasting stability and safety.

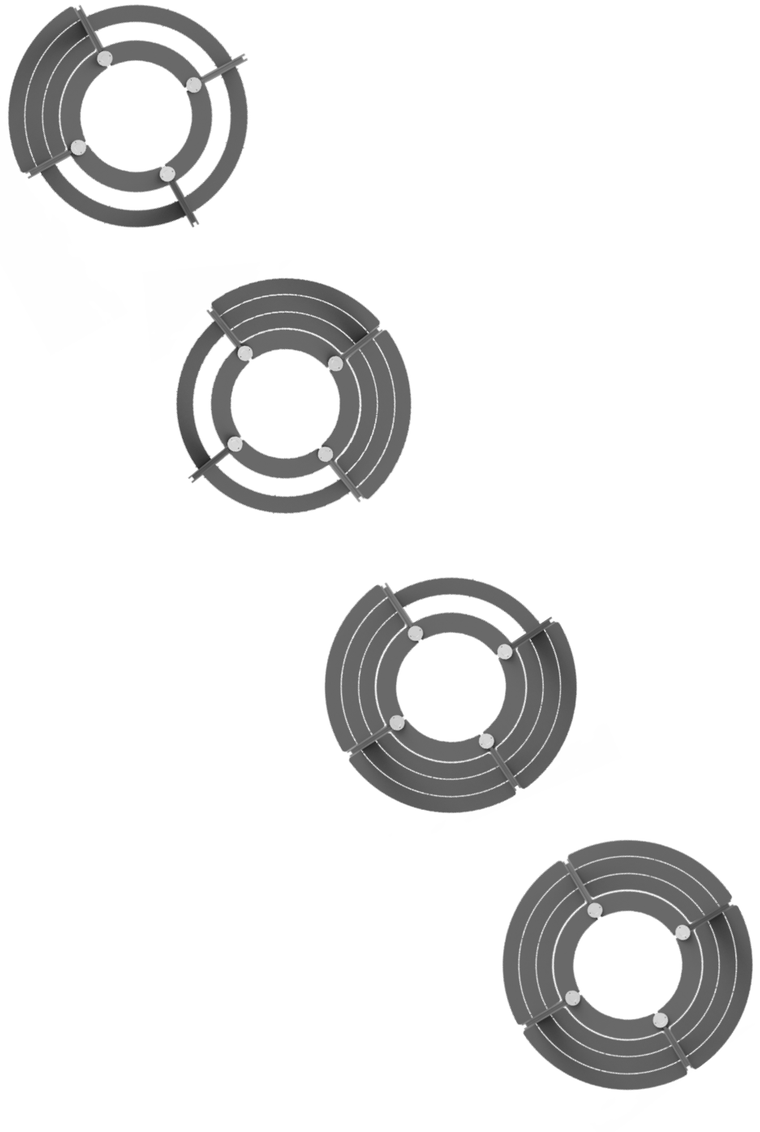

Sustainable by Design
Durable materials and thoughtful construction reduce maintenance and extend lifespan.

Refined Illumination
Integrated lighting transforms trees into illuminated focal points at night.

Designed with Nature in Mind
Developed alongside landscape designers to respect the Critical Root Zone and Impact Zone, ensuring every design protects the health of the tree.

Heritage & Craftsmanship
Created by NESCO, a Thai steel fabricator with 40 years of expertise in precision, durability, and lighting structures.

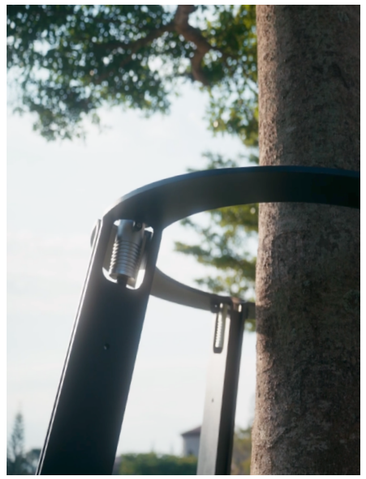

Modular Seating:

The LUMA system is shaped to follow the character of every tree and every place. Its modular quarter-ring design invites you to choose how you wish to sit beneath the canopy—from no seating at all, to a quiet corner, a shared half circle, or a full embrace around the trunk. Each configuration becomes its own gesture, allowing the space to feel intentional, personal, and perfectly in tune with how you want to experience the shade.

Product Detail

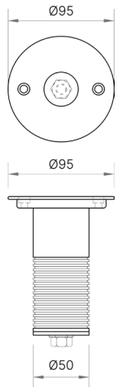

Material:	EPD certified recycled steel scraps
Thickness:	8 mm.
Material treatment:	Hot-dip Galvanizing
Coating:	Ultraviolet stabilized polyester powder coat
Fasteners:	Stainless steel screws
Weight:	(S) 187 KGS. (M) 209 KGS. (L) 242 KGS.
Environments:	Outdoor
Standard model:	4 quarter units

Electrical Data

Power:	10W
Lumen:	912 lm
Efficacy:	91 lm/W
Input Voltage:	220-240V 50/60Hz
Color Rendering Index:	CRI80
Ingress protection:	IP67
Impact resistance:	IK08
Operating Temp:	20°C to 40°C
Color Temperature:	3000K 4000K
Light distribution:	360°

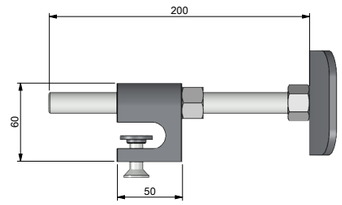

Luminaire:

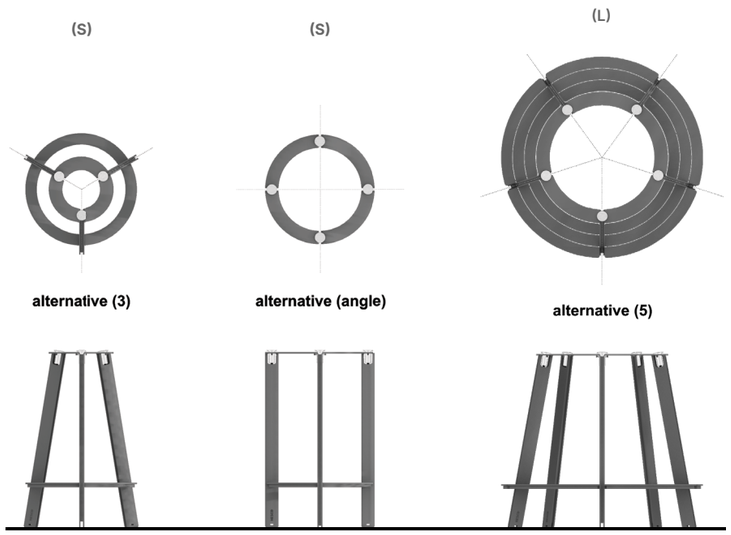

Housing material:	Stainless steel
Optics:	Clear tempered glass lens
Light source:	LED 10W
Dimension:	Ø95×135 mm.
Weight:	0.8 Kgs.
Fasteners:	Stainless steel screws
Gasket:	Weatherproof and durable silicone rubber gasket
Driver:	External control gear unit
Cable:	Pre-wired with 1.5 m. of 2×1.0 sq. mm.4 quarter units

Clamp:

Material:	Hot-dip galvanized steel
Coating:	UV stabilized polyester powder coat
Fasteners:	Stainless steel screws
